Notes to the special purpose financial statements For the year ended 30 June 2021

1 Reporting entity

The following entities are included in the Ngati Paoa Group Special Purpose Financial Statements:

Ngati Paoa Iwi Trust

- Trust established by a trust deed dated October the 4th 2013
- Engaged in the business of managing Iwi Assets

Ngati Paoa Group Holdings Limited

- Company incorporated under the Companies Act 1993
- Engaged in the business of Iwi Investment

Ngati Paoa Group Investments Limited

- Company incorporated under the Companies Act 1993
- Engaged in the business of Iwi Investment

The special purpose financial report was authorised in accordance with a resolution of the trustees of Ngati Paoa Iwi Trust.

2 Statement of Accounting Policies

Basis of preparation

These financial statements have been prepared in accordance with the Special Purpose Financial Reporting Framework for use by For Profit Entities (SPFR for FPEs) published by the New Zealand Institute of Chartered Accountants.

The special purpose financial statements presented consolidate the financial statements of the following entities:

- Ngati Paoa Iwi Trust
- Ngati Paoa Group Holdings Limited
- Ngati Paoa Group investments Limited

These special purpose financial statements are prepared primarily for compliance with obligations under the group's loan agreements and are prepared in accordance with the optional NZICA Special Purpose Framework, applicable to for-profit entities

All balances and transactions between the individual entities above have been eliminated on consolidation, in accordance with the consolidation principles applied under generally accepted accounting practice.

Historical cost

These financial statements have been prepared on a historical cost basis, except where identified in specific accounting policies below. The financial statements are presented in New Zealand dollars (NZ\$) and all values are rounded to the nearest NZ\$, except when otherwise indicated.

Notes to the special purpose financial statements For the year ended 30 June 2021

2 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable, to the extent it is possible that the economic benefits will flow to the entity and revenue can be reliably measured.

Accounts receivable

Accounts receivable are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less an allowance for any uncollected amounts. Individual debts that are known to be uncollectable are written off in the period that they are identified.

Income tax

Income tax is accounted for using the taxes payable method. The income tax expense in profit or loss represents the estimated current obligation payable to Inland Revenue.

Goods and Services tax

All amounts are stated exclusive of goods and services, with the exception of accounts receivable and payable which are stated inclusive of GST.

Property, plant and equipment and investment property

Property, plant and equipment and investment property are stated at historical cost less any accumulated depreciation and impairment losses. Historical cost includes expenditure directly attributable to the acquisition of assets.

Investment Property includes properties held to earn rental income and/or for capital appreciation that are not occupied by the Group. Gains or losses arising from the sale of these properties are included in profit or loss in the period in which they arise

Financial instruments - financial liabilities

Financial liabilities, including borrowings and bank overdrafts, are initially measured at fair value net of transaction costs and are subsequently measured at amortised cost using the effective interest method. Interest expenses are recognised in profit or loss on an effective yield basis.

Borrowings

Borrowings are initially measured at fair value, net of transaction costs. They are subsequently measured at amortised cost (using the effective interest method). Fees for establishing new borrowings are spread over the term of those borrowings.

Notes to the special purpose financial statements For the year ended 30 June 2021

2 Investment in Associates

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

The Group's investment in its associate is accounted for using the equity method. Under the equity method, the investment in an associate is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate since the acquisition date. Goodwill relating to the associate is included in the carrying amount of the investment and is not tested for impairment separately.

The aggregate of the Group's share of profit or loss of an associate and a joint venture is shown on the face of the statement of profit or loss outside operating profit and represents the group's share of profit or loss after tax of the associate.

The financial statements of the associate or joint venture are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value, and then recognises the loss as 'Share of loss of an associate' in the statement of profit or loss.

Changes in accounting policy

There have been no changes in accounting policies. Policies have been applied on a consistent basis with those of the previous period.
